

**IMPORTANT DATES**

**SUBMISSION OF FULL PAPERS**

31 March 2009

**FINAL ACCEPTANCE**

20 April 2009

**LANGUAGE**

English will be the official language both for oral and printed contributions.

**PROCEEDINGS\***

All accepted papers will be presented during the working sessions. The proceedings will be distributed at the registration desk at the beginning of the Conference. Oral presentation is required for the publication of a paper in the Proceedings.

*\* The Proceedings related to the conference are covered by ISI.*

**SUBMISSION OF PAPERS**

The papers will be submitted electronically through the website:

<http://www.wseas.us/conferences/2009/timisoara/sse/>

**PAPER FORMAT**

The paper format can be found on the web site listed above. Papers should be no longer than 6 pages.

**INFORMATION**

For general information please contact the following e-mail address:

**INTERNATIONAL CONFERENCE  
ON SUSTAINABILITY IN SCIENCE  
ENGINEERING (SSE' 09)**

**ACADEMIC DAYS  
TIMISOARA - ROMANIA  
27 - 29 May 2009**

**organised by**

**WORLD SCIENTIFIC AND ENGINEERING  
ACADEMY AND SOCIETY**

**ROMANIAN ACADEMY  
TIMISOARA BRANCH**

**"POLITEHNICA" UNIVERSITY  
OF TIMISOARA**

**ROMANIAN GROUP OF INTERNATIONAL  
ASSOCIATION FOR BRIDGE AND  
STRUCTURAL ENGINEERING**

## GENERAL INFORMATION

The Organizing Committee is pleased to announce SSE'09, with the occasion of the 11<sup>th</sup> edition of "TIMISOARA ACADEMIC DAYS". The Conference is devoted to the SUSTAINABILITY IN SCIENCE ENGINEERING. Timisoara (Romania) has been selected for the venue of the Conference. After similar symposia organised during the last 20 years by Politehnica University of Timisoara the organizing committee in cooperation with WSEAS, Romanian Academy and IABSE decided to have a Conference in 2009.

## SCOPE AND OBJECTIVES

The intention of the organizers is to give an opportunity to academics, scientists, engineers, architects, manufacturers and users from all over the world to come together in a pleasant location to discuss recent developments in the areas of sustainability in science engineering.

This international conference aims to actively facilitate and promote the adoption of policies, methods and tools to accelerate the movement towards a global sustainable environment.

The SSE 2009 conference will enable researchers and practitioners to present and assess the results of recent research on sustainability in science engineering.

## CONFERENCE VENUE

The Conference will be held in downtown of Timisoara from May 27 through May 29, 2009 at the Politehnica University of Timisoara.

Timisoara is one of the largest city in Romania with a population of just over 300 thousand people.

Notable attractions include the Victoria Square, Union Square with the Baroc Palace, the Liberty Square, the Metropolitan Cathedral, the Opera, the National Theatre and the Huniade Castle.

## FEES

	REGISTRATION (Mandatory Part)
WSEAS Members	500 EUR
WSEAS Non - Members	550 EUR

The mandatory part of the registration fees includes:

- Publication of your paper in the Book of the Proceedings (Hard Copy) with ISBN number as Proceedings and ISSN Number as International Book series. In case of multiple volumes, the author receives the hard-copy of the volumes where his paper(s) has/have been published.
- Publication of your paper in the CD-ROM Proceedings containing the Proceedings. A copy of this CD-ROM, containing the Proceedings of all the international conference will be given to you during the conference.
- The Coffee, Tea, Juices, Biscuits and Cakes offered during the coffee breaks.

For a more detailed description of the conference, please visit the website at:

<http://www.wseas.us/conferences/2009/timisoara/sse/>

## CONFERENCE THEMES AND TOPICS

The Conference will be organized to cover the following themes:

- Sustainability in civil engineering and infrastructure
- Sustainability in mechanical engineering
- Sustainability in electrical and electronical engineering
- Sustainability in chemical engineering

For these themes, presentations will deal with the following topics:

- New sustainable raw materials
- Advanced methods for analysis and design
- Improving methods for technology phases
- General and specific policies for energy performance
- Environmental implications in engineering science
- Service phase and rehabilitation
- Engineering surveying
