Editors:

Prof. D.K.Yfantis, National Technical University (NTUA), Greece
Prof. Mihaela Iliescu, Politehnica University of Bucharest, Romania
Prof. Dana Simian, Lucian Blaga University of Sibiu, Romania
Prof. Nikos Mastorakis, Technical University of Sofia, Bulgaria
and Milit.Inst.of University Education, HNA, Greece
Dr. Luigi Vladareanu, Romanian Academy, Bucharest, Romania

International Program Committee Members:

Nikos Abatzoglou, CANADA
Adriana Alexandru, ROMANIA
Kostas Arvanitis, GREECE
Niranjan Bhowmick, INDIA
Derrick Bouchard, CANADA
Ognyan Bozhkov, BULGARIA
Victor Eduard Cenusă, ROMANIA
Marius Cioca, ROMANIA
Emilia Costa, PORTUGAL
Eduard Dan Franti, ROMANIA
Vassilis Gekas, GREECE
Krzysztof Gaska, POLAND
Ioannis Gonos, GREECE
Michio Ikura, CANADA
Lacramioara Ivanescu, ROMANIA
Christopher J. Koroneos, GREECE
Maria Koukou, GREECE
Jurij Krope, SLOVENIA
Ibrahim Krasniqi, ALBANIA
Wen-Zer Lin, TAIWAN
Qingrong Liu, JAPAN
Roghayeh Lotfi, IRAN

Petr Mastny, CZECH REPUBLIC
Ion Melinte, ROMANIA
Abbas Miri, IRAN
Nikitas Nikitakos, GREECE
Zenovia Olteanu, ROMANIA
Ion Oprea, ROMANIA
Krzysztof Pikon, POLAND
Thomas Panagopoulos, PORTUGAL
Thales Papazoglou, GREECE
Kostas Passadis, GREECE
John Prousalidis, GREECE
Florin Popescu, ROMANIA
M.Petrakis, GREECE
George Stavrakakis, GREECE
Fragkiskos Topalis, GREECE
Yingjun Ruan, JAPAN
Javad Sargolzaei, IRAN
Shahab Varkouhi, IRAN

Preface

This book contains the proceedings of the 1st WSEAS International Conference on MATERIALS SCIENCE (MATERIALS'08) which was held in Bucharest, Romania, November 7-9, 2008. This conference aims to disseminate the latest research and applications in Structures, properties and uses of materials, Nanostructured materials, Computational Material Science, Experiments and Simulation, Composite materials and structures and other relevant topics and applications.

The friendliness and openness of the WSEAS conferences, adds to their ability to grow by constantly attracting young researchers. The WSEAS Conferences attract a large number of well-established and leading researchers in various areas of Science and Engineering as you can see from <http://www.wseas.org/reports>. Your feedback encourages the society to go ahead as you can see in <http://www.worldses.org/feedback.htm>

The contents of this Book are also published in the CD-ROM Proceedings of the Conference. Both will be sent to the WSEAS collaborating indices after the conference: www.worldses.org/indexes

In addition, papers of this book are permanently available to all the scientific community via the WSEAS E-Library.

Expanded and enhanced versions of papers published in this conference proceedings are also going to be considered for possible publication in one of the WSEAS journals that participate in the major International Scientific Indices (Elsevier, Scopus, EI, ACM, Compendex, INSPEC, CSA see: www.worldses.org/indexes) these papers must be of high-quality (break-through work) and a new round of a very strict review will follow. (No additional fee will be required for the publication of the extended version in a journal). WSEAS has also collaboration with several other international publishers and all these excellent papers of this volume could be further improved, could be extended and could be enhanced for possible additional evaluation in one of the editions of these international publishers.

Finally, we cordially thank all the people of WSEAS for their efforts to maintain the high scientific level of conferences, proceedings and journals.

Table of Contents

Plenary Lecture I: Advances in Corrosion Protection Technology <i>D.K. Yfantis</i>	9
The Carbonation Process Influence on Concrete Durability <i>Catalin Badea, Corneliu Bob, Ionel Balcu, Sorin Dan, Iosif Buchman And Aurelian Gruin</i>	11
Experimental Researches on Efficient Building Materials Made with Ultra Fine Fly Ash <i>Catalin badea, Corneliu Bob, Ionel Balcu, Sorin Dan and Iosif Buchman</i>	16
Effects of Strain Rates on the Characterization of 99.99% Gold Wire: a Case Study in Micro Tensile Test <i>S. Abdullah, M.F.Mod Yunoh, A. Jalar and H.Kamarudin</i>	20
Fabrication of Porous Nanoflake ZnO <i>Huda Abdullah, Nugroho Pratomo Ariyanto, Brian Yulianto and Syarif Junaidi</i>	24
Effect of Heat Treatment on Structural, Optical and Morphology Properties of Tin-Doped ZnO Thin Film <i>H. Abdullah, S. Shaari, A.Amir Kadhum and M. N. Norazia</i>	29
Hydrogen Separation using Silica Membranes <i>Salvador Alfaro, Miguel A. Valenzuela and Pedro Bosch</i>	35
On the Elastic Properties of Some Advanced Composite Laminates Subjected to Off-axis Loading Systems <i>Horatiu Teodorescu-Draghicescu, Sorin Vlase, Dana Luca Motoc, Maria Luminita Scutaru and Ramona Purcareea</i>	40
Influence of Additives on Electrical Characteristics of Ion-Selective Polymeric Membranes <i>Eugenia Eftimie Totu, Elena Ruse and Ioana Diaconu Ghica</i>	44
Study on Formation of Single Phase of a Ti-10at%Mo-10at%Cr alloy on Sintering and Solution Treatment <i>Junaidi Syarif</i>	48
Fatigue and Fatigue Crack Growth Behavior of Tool Steel <i>Z. Sajuri, j. Syarif, m. Z. Omar, m. M. Allafi and m.f. Sudar</i>	53
Numerical Simulation of Singlet Oxygen Generation by a Porphyrin-based Photosensitizer <i>Stefan Varga, Silvia Patachia and Rodica Ion</i>	57
Analysis and Models of Some Composites Corrosion Evolution <i>Alina Barbulescu, Dana – Cristina Toncu and Lucica Orac</i>	63
“An Investigation of the Corrosion Characteristics of Base Ceramo-Metal Dental Casting Alloys” <i>C. D. Yfantis</i>	70

Research on the Reconditioning of Conveyor Troughs by Using Non-ferrous Alloys	74
<i>Sorina Daniela Stanila</i>	
Polypyrrole-based Metallization of Insulators – an Application to Printed Circuit Boards (PCB)	78
<i>C.d.yfantis, S. I. Kakos and D. K. Yfantis</i>	
Chrome-free sol-gel Silane Coatings for Corrosion Protection of Al Alloys	82
<i>C. D. Yfantis, s. Depountis and d. K. Yfantis</i>	
Investigation with Ultrasonic Waves to Determine Metallic Materials Properties	86
<i>Mihai Demian, Gabriela Demian and Luminita Grecu</i>	
Bimetallic Light Automotive Parts Obtained from Liquid Phase	89
<i>A. Corabieru, S. Velicu, d. Zait, P. Corabieru and D.D. Vasilescu</i>	
Transparent Hydrophilic Photocatalytic Thin Films on Polycarbonate Substrates Prepared by a Sol-Gel Process	95
<i>Razan Fateh, Ralf Dilerta and Detlef Bahnemann</i>	
A New Characterization of Salt Deposits	101
<i>Saramet Mihai and Raducanu Razvan</i>	
A Study of Parameters Affecting to Mechanical Property of Dissimilar Welding between Stainless Steel (AISI 304) and Low Carbon Steel	105
<i>S. Kaewkuekool and B. Amornsri</i>	
Wear Characterisation of Connecting Rod Bore Bearing Shell Using I-kaz and Taylor Tool Life Curve Methods	110
<i>M. J. Ghazali, M. Z. Nuawi, N. I. I. Mansor and F. Lamin</i>	
Evaluation of the Characteristics of a Shape Memory Alloy Cantilever Actuator Using Thermal Analysis	115
<i>Sonia Degeratu, Petre Rotaru, Nicu G. Bizdoaca, Gheorghe Manolea, Gabriela S. Petropol and Dan Tont</i>	
CDMA Detection Based on Least-Squares Criterion	121
<i>Ellessaid Sulaiman Saad</i>	
A Synthesis of Aluminium Foam from Ingot by Compressing Method	130
<i>S. Nansaarn and S. Sopha</i>	
The Study of Proper Time Range Welding to Resistance Spot Welding for Mild Steel	134
<i>S. Nansaarn and P. Pearsura</i>	
Author Index	139

Plenary Lecture I

Advances in Corrosion Protection Technology

Professor D.K. Yfantis
National Technical University (NTUA),
GREECE

Email: dyfantis@central.ntua.gr

Abstract: Corrosion is an ubiquitous and thermodynamically inevitable degradation phenomenon associated with the interaction of metallic materials with their environment. Because corrosion has a significant economic and safety impact on society it is not surprising that, over the past 25 years the development of corrosion prevention and protection methods has been my research group's target area. Approaches available for controlling corrosion include the application of protective coatings to metal surfaces to act as a barrier or perhaps provide sacrificial protection, the addition of chemical species to the environment to inhibit corrosion, alteration of an alloy composition to enhance its corrosion resistance, and the treatment of the surface to improve its corrosion behaviour. Seeking to develop and improve corrosion protection technology, incorporating environmental concerns, has driven our research at National Technical University of Athens (NTUA).

Our work in these areas will be reviewed and current results presented. In particular, the application of conductive polymers as anti-corrosion coatings will be discussed as well as a new chrome-free passivation method of tinplate. Forecasts of future developments in this area will be presented

Brief Biography of the speaker: D.K.Yfantis received his Msc in Chemical Engineering from National Technical University of Athens, Greece (1966). He received his Ph.D (Dr.rer.nat) from Technical University of Munich, Department of Physical Chemistry and Electrochemistry (1986). He is Professor at the School of Chemical Engineering, National Technical University of Athens (NTUA). He is currently visiting professor of University of Athens (Post-graduate program of Dental School) and professor of Post-graduate program, Materials Science and Technology in National Technical University of Athens. He was a visiting professor in the University of Trento (Dipartimento di Ingeneriadei Materiali, Italy, 1995).

His research interests cover the area of materials (metallic and biomaterials), especially he focuses on corrosion-protection, development of anticorrosive methods and advanced coatings (based on conductive polymers). He is an author and co-author of more than 160 articles in journals and conference proceedings. He is an author of 5 books in corrosion-protection of materials and biomaterials. He has participated in five European programmes (one of them was awarded, craft award). He has organised 5 conferences in Greece on anticorrosive paints.
