Arti Vaish received M.Tech. degree in Microwave engineering from the Rajiv Gandhi Prodyogiki Vishwavidyalaya, Bhopal, INDIA, in 2004, and is currently working towards the Ph.D. degree. Her research interests include electromagnetic wave propagation in inhomogeneous and anisotropic waveguide structures, numerical techniques in electromagnetic field problems and design and analysis of different types of microstrip patch antenna. She is working as Assistant Professor at Manav Rachna International University, Faridabad.

Prof. Harish Parthasarathy received his B.Tech. degree in electrical engineering from IIT,Kanpur, in 1990 and his Ph.D. degree from IIT, Delhi in 1994. He completed his post doctoral programme from Indian Institute of Astrophysics in 1996. He has worked as an assistant professor at IIT, Bombay and as a visiting faculty at IIT, Kanpur. Currently he is working as a Professor at Netaji Subhash Institute of Technology, New Delhi. His research interests include numerical techniques in electromagnetics, group representation theory and stochastic processes. He has authored several books and research papers on electromagnetics, signal processing, engineering mathematics and physics.
