Biography:

Dr. Mohamed Bayoumy A. Zahran, was born in Egypt, 1963 received his B.Sc at 1987 with excellent grade, M.Sc in 1993 and Ph.D. in 1999 from Cairo University, Faculty of Engineering, Electrical Power and Machines Dept. He is an Associate Professor Researcher at the Electronics Research Institute, Photovoltaic Cells Dept. His experience is mainly in the field of renewable energy sources, systems design, management and control. He has been employed full time by the National Authority for Remote Sensing and Space Science (NARSS), Space Division, since 2002, power subsystem designer for EgyptSat 1 and System Engineer of MisrSat-2 Project and Satellite Power Subsystem Designer. Currently, he is a Associate Professor at Jazan University Faculty of Engineering, Electrical Engineering Department, Kingdom of Saudi Arabia, since 1st Oct., 2008.

Dr. Yousry Abdel-Gawad Atia, was born in Egypt in 1964, received his B.Sc from Menufia Univ. Faculty of Engineering, Shebin-El-Kom in 1987. He was awarded the M.Sc and Ph.D. in 1995 and 2000 respectively from Cairo University, Faculty of Engineering, Electrical Power and Machines Dept. Currently he is an Associate Professor Researcher at the Electronics Research Institute, Photovoltaic Cells Dept. Dr. Atia has experience in the fields of renewable energy, power electronics, drives, electrical machines, system design and control.

Dr. Abdullah Alhossein has several affiliations with Jazan Univ. including: the Dean of Faculty of Science, the Acting Dean of Academic Dev. Deanship, Supervisor of Eng. College and Computer Science College. Assistant Professor, Jazan Univ. He has a B.Sc. degree in Mathematics from King Saud Univ. (Excellent with first honor degree), M.Sc. in Mathematical Statistics from Iowa State Univ., Ames, USA, 1989 (1409h), M.Phil in Applied Statistics, "Application in Computer Field" from Lancaster Univ., UK 1998 (1419h), and Ph. D. in Applied Statistics "Eng. Applications Using Computer, Fortran System" from Lancaster Univ., UK 2000 (1421h).

Dr Ihab El-Sayed was born in Alexandria Egypt in 1963, he has got his B.Sc. from the Faculty of Eng. Alexandria Univ. He joined Stuttgart Univ., Stuttgart, Germany and there he worked as a research associate on a project for using the computer to monitor the quality of industrial products on-line, after three year he was nominated to an Overseas Research Award Scheme in the Manchester Univ. (Manchester - UK) where he got his M. Phil. And his Ph.D. in the application of lasers, computers and feedback control in monitoring the quality of products in industry. He worked in Suez Canal Univ. Egypt and as an advisor for the Minister of Industry in Egypt for two years and half. His main area is interfacing machines with computer and all application of quality Control in industry using on-line and feedback technology
